ST. GALLEN, Switzerland, March 03, 2026 (GLOBE NEWSWIRE) -- [Sportradar Group AG](#) (Nasdaq: SRAD) ("Sportradar" or the "Company"), a leading global sports technology company focused on creating immersive experiences for sports fans and bettors, today announced financial results for its fourth quarter and full year ended December 31, 2025.

Carsten Koerl, Chief Executive Officer of Sportradar, said: "Sportradar concluded 2025 with another quarter of strong performance, demonstrating significant momentum across our business as we continued to drive innovation and customer adoption. For the full year, we delivered on all fronts, achieving record revenue, substantial margin expansion, and increased free cash flow generation. These results underscore the durability of our growth strategy and our mission-critical role within the global sports ecosystem. The acquisition of IMG further strengthens our competitive position, and we are rapidly integrating and monetizing this premium content across our global customer base. Given our financial performance, confidence in our long-term trajectory and robust balance sheet, we have accelerated share repurchases and significantly increased our total authorization. We remain committed to relentlessly creating value for our partners, clients, and shareholders, and we are excited about the opportunities in both the short and long term."

FULL YEAR FINANCIAL RESULTS

Revenue

Total revenue for the full year was €1,290 million, up €183 million, or 17% year-over-year, driven by 15% growth in Betting Technology & Solutions and 22% growth in Sports Content, Technology & Services.

Betting Technology & Solutions revenues of €1,047 million were up 15% year-over-year primarily driven by a 16% increase in Betting & Gaming Content due to customer uptake of our content and products, contributions related to the acquisition of IMG ARENA, as well as from U.S. market growth, partially offset by the impact of foreign currency movements. Managed Betting Services revenues of €230 million were up 15% driven by strong growth in Managed Trading Services due to record turnover and new customers.

Sports Content, Technology & Services revenues of €243 million increased 22% year-over-year primarily driven by 24% growth in Marketing & Media Services due to increased spending from technology and media customers and contributions related to our expanded affiliate marketing capabilities.

The Company generated strong revenue growth globally with Rest of World up 15% and the United States up 23%. Foreign currency movements, particularly due to the U.S. dollar relative to the Euro, continue to be a headwind. As a percentage of total Company revenues, United States revenue represented 25% of total Company revenue for the full year as compared to 24% in the prior year due to continued market growth and customer uptake of our premium content and solutions.

Customer Net Retention Rate of 109%, which excludes any contribution from IMG, further demonstrates our ability to cross sell and up sell to our clients, as well as the continued market growth in the United States.

¹ Non-IFRS measure. See the sections captioned "Non-IFRS Financial Measures and Operating Metric" and "IFRS to Non-IFRS reconciliations" for more details.

Profit for the period

Profit for the full year was €100 million, an increase of €67 million compared to the prior year, primarily due to the strong operating results and a foreign currency gain of €79 million compared to a foreign currency loss of €38 million last year, due to unrealized currency fluctuations mainly associated with the U.S. dollar-denominated sport rights. These increases were partially offset by income tax expense of €18 million this year as compared to an income tax benefit of €11 million last year driven primarily by the recognition of deferred tax assets as well as transaction-related costs and non-routine litigation expense.

Adjusted EBITDA

Full year Adjusted EBITDA was €297 million, up €74 million, or 33% compared to €222 million in the prior year. The increase was largely driven by the 17% revenue growth, partially offset by increased sport rights costs primarily related to the continued success of the ATP partnership, the renewal of our partnership with Major League Baseball ("MLB") and the addition of IMG ARENA content. The current year also included increased adjusted personnel expenses to support growth initiatives and higher adjusted purchased services driven by growth in Marketing and Media Services revenue and investments in further developing our content and product portfolio.

FOURTH QUARTER FINANCIAL RESULTS

Revenue

Total revenue for the fourth quarter was €369 million, up €62 million, or 20% year-over-year, driven by 24% growth in Betting Technology & Solutions, and 5% growth in Sports Content, Technology & Services.

Betting Technology & Solutions revenues of €305 million were up 24% year-over-year primarily driven by a 29% increase in Betting & Gaming Content due to uptake of our content and products, contributions related to the acquisition of IMG ARENA, as well as U.S. market growth, partially offset by the impact of foreign currency movements. Managed Betting Services revenues of €58 million were up 5% driven by growth in Managed Trading Services due to increased turnover and new customers, partially offset by lower platform revenues.

Sports Content, Technology & Services revenues of €63 million increased 5% year-over-year primarily driven by 13% growth in Marketing & Media Services, due to increased spending from technology and media customers and contributions related to our expanded affiliate marketing capabilities.

The Company generated strong revenue growth globally with Rest of World up 23% and the United States up 11%. Foreign currency movements, particularly due to the U.S. dollar relative to the Euro, continue to be a headwind. As a percentage of total Company revenues, United States revenue represented 23% of total Company revenue in the fourth quarter as compared to 24% in the prior year quarter.

Profit for the period

Profit for the period was €4 million, an increase of €6 million, compared to a loss of €1 million in the same quarter in 2024, driven by strong operating

results as well as a €35 million lower foreign currency loss due principally to unrealized currency fluctuations mainly associated with U.S. dollar-denominated sports rights. The current quarter included an income tax benefit of €6 million as compared to an income tax benefit of €20 million last year driven primarily by the recognition of deferred tax assets, as well as transaction-related costs and non-routine litigation expense.

Adjusted EBITDA

Fourth quarter Adjusted EBITDA was €89 million, up €29 million, or 48% compared to €61 million in the same quarter in 2024. The increase was largely driven by the 20% revenue growth, primarily offset by increased sport rights costs related to the continued success of the ATP partnership deal and the addition of IMG ARENA content, as well as increased adjusted personnel expenses to support growth.

Business Highlights

- Completed the acquisition of IMG ARENA and its global sports betting rights portfolio in November 2025, further strengthening and differentiating our position as a leading technology and content provider in the most bet upon global sports, including soccer, tennis and basketball.
- In February 2025, extended and expanded our partnership with MLB for 8 years, beginning with the 2025 season. With this extension, Sportradar became the exclusive distributor of ultra-low latency official MLB data and media content, including MLB Statcast Data, and audiovisual content across our global client network.
- Entered into a partnership with DAZN providing data and broadcast services across their global media platform, spanning more than 30 sports and 8 languages.
- Developed a customized 4Sight product for NBC Universal Peacock's Performance View for streamed NBA games, giving fans a new way to experience the action on the court by providing an on-screen layer of data and deep analytics.
- Announced a multi-year agreement with NBC Sports Regional Sports Networks to enhance the NBA viewing experience through real-time, cutting-edge broadcast solutions that enhance live game coverage.
- Strengthened our industry-leading soccer portfolio, recently extending the German DFB Cup rights, as well as securing betting and media content rights for the 2025 FIFA Club World Cup and launching innovative new products for Bundesliga International's 2025-2026 season.

IMG ARENA Acquisition

On November 1, 2025, Sportradar completed its acquisition of IMG ARENA and its global sports betting rights portfolio. The closing of this transaction marked a milestone in Sportradar's growth strategy, further strengthening and differentiating our position as a leading technology and content provider in the most bet upon global sports, including soccer, tennis and basketball.

Sportradar did not provide any financial consideration as part of the acquisition. Instead, the deal included total financial consideration of \$225 million comprised of approximately \$122 million in cash prepayments by the seller to certain sports rightsholders and approximately \$103 million to Sportradar. The payments to Sportradar, which are subject to customary purchase price adjustments, will be made over a two-year period. Given the unique transaction structure, the acquisition is expected to be accretive to Sportradar's Adjusted EBITDA margins and Free cash flow conversion, while accelerating the Company's revenue, Adjusted EBITDA, and Free cash flow growth.

The acquired portfolio encompasses strategic relationships with over 70 rights holders, delivering approximately 38,000 official data events and 29,000 streaming events across 14 global sports on six continents. Sportradar sports coverage now totals more than one million matches annually. The acquisition enhances the Company's content distribution and will further fuel product development. Sportradar is seamlessly integrating and monetizing these rights across its highly scalable technology platform and client network.

Balance Sheet and Liquidity

The Company's cash and cash equivalents were €365 million as of December 31, 2025, as compared with €348 million as of December 31, 2024. Net cash generated from operating activities for the twelve-months ended December 31, 2025 of €403 million due to strong operating performance was partially offset by net cash used in investing activities of €232 million, primarily from payments related to sport rights licenses, and by net cash used in financing activities of €128 million. Financing activities included €105 million in share repurchases, and €15 million of payments related to the acquisition of the remaining non-controlling interest in a subsidiary. Free cash flow for the year ended December 31, 2025 was €167 million, an increase of €50 million from €118 million in the same period in 2024.

Including an undrawn credit facility, the Company had total liquidity of €585 million as of December 31, 2025, as compared to €568 million as of December 31, 2024, and no debt outstanding.

Non-IFRS Financial Measures and Operating Metric

We have provided in this press release financial information that has not been prepared in accordance with IFRS, including Adjusted EBITDA, Adjusted EBITDA margin, Constant Currency metrics, Adjusted purchased services, Adjusted personnel expenses, Adjusted other operating expenses, Free cash flow, and Free cash flow conversion, as well as our operating metric, Customer Net Retention Rate. We use these non-IFRS financial measures internally in analyzing our financial results and believe they are useful to investors, as a supplement to IFRS measures, in evaluating our ongoing operational performance. We believe that the use of these non-IFRS financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing our financial results with other companies in our industry, many of which present similar non-IFRS financial measures to investors.

Non-IFRS financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with IFRS. Investors are encouraged to review the reconciliation of these non-IFRS financial measures to their most directly comparable IFRS financial measures provided in the financial statement tables included below in this press release.

- "*Adjusted EBITDA*" represents earnings for the period adjusted for finance income and finance costs, income tax expense or benefit, depreciation and amortization (excluding amortization of capitalized sport rights licenses), foreign currency gains or losses, and other items that are non-recurring or not related to the Company's revenue-generating operations, including share-based compensation, impairment charges or income, restructuring costs, non-routine litigation costs, certain transaction-related costs, and secondary offering costs.

License fees relating to sport rights are a key component of how we generate revenue and one of our main operating expenses. Only licenses that meet the recognition criteria of IAS 38 are capitalized. The primary distinction for whether a

license is capitalized or not capitalized is the contracted length of the applicable license. Therefore, the type of license we enter into can have a significant impact on our results of operations depending on whether we are able to capitalize the relevant license. As such, our presentation of Adjusted EBITDA reflects the full costs of our sport right's licenses. Management believes that, by including amortization of sport rights in its calculation of Adjusted EBITDA, the result is a financial metric that is both more meaningful and comparable for management and our investors while also being more indicative of our ongoing operating performance.

We present Adjusted EBITDA because management believes that some items excluded are non-recurring in nature and this information is relevant in evaluating the results relative to other entities that operate in the same industry. Management believes Adjusted EBITDA is useful to investors for evaluating Sportradar's operating performance against competitors, which commonly disclose similar performance measures. However, Sportradar's calculation of Adjusted EBITDA may not be comparable to other similarly titled performance measures of other companies. Adjusted EBITDA is not intended to be a substitute for any IFRS financial measure.

Items excluded from Adjusted EBITDA include significant components in understanding and assessing financial performance. Adjusted EBITDA has limitations as an analytical tool and should not be considered in isolation, or as an alternative to, or a substitute for, profit for the period, revenue or other financial statement data presented in our consolidated financial statements as indicators of financial performance. We compensate for these limitations by relying primarily on our IFRS results and using Adjusted EBITDA only as a supplemental measure.

- "*Adjusted EBITDA margin*" is the ratio of Adjusted EBITDA to revenue.

The Company is unable to provide a reconciliation of Adjusted EBITDA to profit (loss) for the period, or Adjusted EBITDA margin to Profit (loss) for the period as a percentage of revenue (in each case, the most directly comparable IFRS financial measure) on a forward-looking basis without unreasonable effort because items that impact these IFRS financial measures are not within the Company's control and/or cannot be reasonably predicted. These items may include, but are not limited to, foreign exchange gains and losses. Such information may have a significant, and potentially unpredictable, impact on the Company's future financial results.

- "*Constant Currency*" information compares results between periods as if exchange rates had remained constant. As the impact of exchange rate fluctuations can be highly variable, we believe these metrics, unaffected by exchange rate variability, provide meaningful insights to investors into our operational performance and underlying business trends.

The Company is unable to provide a reconciliation of constant currency measures to their comparable IFRS measures on a forward-looking basis without unreasonable effort because future exchange-rate movements that impact these measures are not within the Company's control and/or cannot be reasonably predicted. Such information may have a significant, and potentially unpredictable, impact on the Company's future financial results.

We present Adjusted purchased services, Adjusted personnel expenses, and Adjusted other operating expenses (together, "Non-IFRS expenses") because management utilizes these financial measures to manage its business on a day-to-day basis and believes that they are the most relevant measures of expenses. Management believes these adjusted expense measures provide expanded insight to assess revenue and cost performance, in addition to the standard IFRS-based financial measures. Management believes these adjusted expense measures are useful to investors for evaluating Sportradar's operating performance against competitors. However, Sportradar's calculation of adjusted expense measures may not be comparable to other similarly titled performance measures of other companies. These adjusted expense measures are not intended to be a substitute for any IFRS financial measure.

- "*Adjusted purchased services*" represents purchased services less capitalized external development costs.
- "*Adjusted personnel expenses*" represents personnel expenses less share-based compensation awarded to employees, restructuring costs, and capitalized personnel compensation.
- "*Adjusted other operating expenses*" represents other operating expenses plus impairment loss on trade receivables, less non-routine litigation, share-based compensation awarded to third parties, impairment charges or income, certain transaction-related costs, and secondary offering costs.

We consider Free cash flow and Free cash flow conversion to be liquidity measures that provide useful information to management and investors about the amount of cash generated by the business after the purchase of property and equipment, the purchase of intangible assets and payment of lease liabilities, which can then be used, among other things, to invest in our business and make strategic acquisitions, as well as our ability to convert our earnings to cash. A limitation of the utility of Free cash flow and Free cash flow conversion as measures of liquidity is that they do not represent the total increase or decrease in our cash balance for the year.

- "*Free cash flow*" represents net cash from operating activities adjusted for payments for lease liabilities, acquisition of property and equipment, and acquisition of intangible assets.

- “Free cash flow conversion” represents Free cash flow as a percentage of Adjusted EBITDA.

The Company is unable to provide a reconciliation of Free cash flow to net cash from operating activities or Free cash flow conversion to net cash from operating activities as a percentage of profit (loss) for the period (in each case, the most directly comparable IFRS financial measure) on a forward-looking basis without unreasonable effort because items that impact these IFRS financial measures are not within the Company's control and/or cannot be reasonably predicted. These items may include, but are not limited to, changes in working capital, the timing of customer payments, the timing and amount of tax payments, and other items that are non-recurring or unusual. Such information may have a significant, and potentially unpredictable, impact on the Company's future financial results.

In addition, we define the following operating metric as follows:

- “Customer Net Retention Rate” is calculated for a given period by starting with the reported Trailing Twelve Month revenue from our top 200 customers as of twelve months prior to such period end, or prior period revenue. We then calculate the reported trailing twelve-month revenue from the same customer cohort as of the current period end, or current period revenue. Current period revenue includes any upsells and is net of contraction and attrition over the trailing twelve months but excludes revenue from new customers in the current period. We then divide the total current period revenue by the total prior period revenue to arrive at our Net Retention Rate.
